

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1.-13. (Canceled)

14. (Previously Presented) A method of moving a stand mixer, wherein the stand mixer includes a body having a base and a head, the base including a front base portion and a rear base portion and the head including a front head portion and a rear head portion, the base including attachment means capable of receiving a removably detachable bowl; the bowl including a handle; the handle being positioned below the front head portion when the bowl is attached to the attachment means; at least one wheel positioned adjacent the rear base portion, and wherein the handle can be lifted upwardly to engage the at least one wheel for movement of the stand mixer, the method comprising:

attaching the bowl to the base at the attachment means;

lifting the handle upwardly in a direction toward the front head portion to engage the at least one wheel.

15. (Original) The method of moving a stand mixer of claim 14, wherein the base includes at least one foot that is disengaged when the handle is lifted.

16. (Original) The method of moving a stand mixer of claim 14, further comprising: maneuvering the stand mixer into a desired position.

17. (Original) The method of moving a stand mixer of claim 16, further comprising:
disengaging the at least one wheel by lowering the handle until the stand mixer rests fully
upon the base.

18. (Original) The method of moving a stand mixer of claim 14, wherein when the
base is fully in contact with a surface, the at least one wheel is not in contact with the surface.

19.-20. (Canceled)

21. (Previously Presented) The method of moving a stand mixer of claim 14 wherein
attaching the bowl to the base at the attachment means further includes:
locking the bowl into the base.

22. (Previously Presented) A method of moving a stand mixer, wherein the stand
mixer includes a body having a base and a head, the base including a front base portion and a
rear base portion and the head including a front head portion and a rear head portion, the base
including attachment means capable of receiving a removably detachable bowl; the base
including a handle; the handle being positioned at the front base portion; at least one wheel
positioned adjacent the rear base portion, and wherein the handle can be lifted upwardly to
engage the at least one wheel for movement of a stand mixer, the method comprising:

attaching the bowl to the base at the attachment means; and

lifting the handle upwardly in a direction toward the front head portion to engage the at
least one wheel.

23. (Currently Amended) A method of moving a stand mixer, wherein the stand mixer includes a body having a base and a head, the base including a front base portion and a rear base portion and the head including a ~~front~~ head portion and a rear head portion, the base including attachment means capable of receiving a removably detachable bowl; the head including a handle positioned on the ~~front~~ head portion; at least one wheel positioned adjacent the rear base portion; and wherein the handle can be lifted upwardly to engage the at least one wheel for movement of a stand mixer, the method comprising:

attaching the bowl to the base at the attachment means; and

lifting the handle upwardly to engage the at least one wheel.

24. (Currently Amended) The method of claim 23 wherein the handle is disposed on a top surface of the ~~front~~ head portion.

25. (Currently Amended) The method of claim 23 wherein the handle is disposed on a side surface of the ~~front~~ head portion.

26. (Currently Amended) The method of claim 23 wherein the handle is disposed on a front attachment surface of the ~~front~~ head portion.

27. (Currently Amended) The method of claim 23 including a rear handle ~~disposed at the rear head portion.~~
